GUARANTEE

We guarantee everything we sell to be strictly true to name and fully up to grade and description in catalog. We also guarantee the stock to reach you in good condition.

As the subsequent behavior of all nursery stock is largely dependent upon the care given it by the purchaser or on soil or climatic or other conditions not within our control, we cannot guarantee continued growth. However, we do guarantee spring shipped chrysanthemum plants to grow and bloom the following fall. If plants are received in bad condition, notify us at once, and if shipment is by express, have express agent note the damage on express receipt. If we are notified within 10 days after arrival of plants, we will replace same free but in no case will replacement be made if we are notified later than 10 days after arrival of plants. It is mutually agreed that in any event we are not liable for more than the original price of the plants.

HOW TO ORDER

Order Early. We will ship stock at proper planting time. Stock is reserved for orders as they come in and late orders often cannot be filled complete because of shortage of some varieties. Remember, nursery stock is a living product and cannot be manufactured on short notice if the supply runs out. Late orders often find our stock too far advanced to give the best satisfaction. Early orders are shipped when stock is just right for best transplanting.

Remittances. Send money by personal check, post office or express money order or bank draft. If you enclose currency, seal this envelope on all edges and send by registered mail.

Cancellations. Orders are not subject to cancellation or change during shipping season and plants are not returnable for credit.

Location. VISITORS ARE ALWAYS WELCOME at our nurseries located 1 mile south of U.S. Highway 12, 3 miles East of Hartford, or 3 miles West of Lawrence.

Planting Instructions sent free with each order. *Certificate of Inspection* issued by the State of Michigan, indicating that all stock is apparently free from disease, accompanies every shipment.
